TELEPHONE CONNECTIONS.

## Fish Market Quotations-Coming and The Annual Exercises Held Yesterday Going of the Freighters-

General Matters.

The important points along the lower river in Westmoreland county are to be connected by a telephone line within the next month or two. For some years past a telephone line has extended from Kinsale and the larger towns to Fredericksburg. Now it is proposed to build a line from Kinsale to Colonial Beach, with branch lines to smaller points. Additional lines are also to be from Litwalton to Warsaw and from there to Village. When these lines are completed it will be possible to reach all points of the northern neck of Virginia from Fredericksburg by telephone.

The supply of fish in hand at the fish market this morning was small and the demand was good. Prices, in consequence of the scarcity of the fish, have advanced, and this morning were: For Spanish mackerel, 10 to 11 cents per pound; salmon trout, 6 to 7 cents per pound; flounders, 4 to 5 cents per pound; sturgeon, 8 to 9 cents per pound; spot, 4 cents per pound; white perch, 6 to 15 cents per pound; boiling rock, 15 to 20 cents per pound; butlengt per pound; butlengt, 7 to 10 cents per pound; bluefish, 6 to 8 cents per pound; sea bass, 6 cents per pound; weak-fish, 5 cents per pound; butterfish, \$4.10 per herrel; pergies 10 cents each; gray per barrel; porgles, 10 cents each; gray trout, \$5 to \$6 per barrel; drum, 15 to 25 cents each; carp, 10 to 15 cents each; cat-fish, 15 to 25 cents per bunch; eels and yellow perch, 10 to 20 cents per bunch. Afternoon - Cardinal Martinelli Present-Medals and Certificates.

Nine young men received degrees from St. John's College yesterday afternoon at Lafayette Square Opera House, the occasion being the annual commencement of that institution. A program of recitation and music, with an address by Rev. Chas. Warren Currier, pastor of St. Mary's Church, entertained an audience which completely filled the theater. Flowers and ferns formed the decorations on the stage. Several selections were rendered by the Marine Band before the rise of the curtain. Cardinal Martinelli, wearing the decorations and red hat of his office, presided. Seated around him on the stage were many church dignitaries. Commissioner John W.

Ross was also present. Each of the graduates discoursed most creditably on subjects, as follows: William D. Wheeler, "Restriction of Suffrage;" George W. Lucas, jr., "Religious Congregations in France;" Daniel J. Lix, "Catholic Journalism:" Anthony J. Lanza, "Our New Departure;" John J. Brosnan, "Christian Versus Social Democracy," master's oration. After each recitation a selection was played by the Marine Band. In his address to the graduates. Rev. Currier predicted a them to attain success by perseverance and

## ROCKVILLE AND VICINITY.

lecovery of Watch Stolen Last September-Program of Amusements. pecial Correspondence of The Evening Star.

ROCKVILLE, Md., June 21, 1901. Mr. William H. Rabbitt, residing near his place, is rejoicing over the recovery of a valued gold watch and chain, which he mourned as lost for several months. During the Rockville fair last September the articles mentioned were taken from his clothes, which he left hanging in his racing vening for Baltimore.

The big bugeye James G. Blaine, having class were granted to William P. Kirby, later he received a letter from Washington inquiring if he would give a reward for the return of his property. He replied that he would, and notified the Washington police authorities, but the writer of the letter could not be located. Several days ago a colored man was cleaning one of the stalls at the fair grounds, where the stolen articles were undoubtedly hidden by the thief, and found the watch and chain and returned them to their owner.

Mrs. Virginia Timmons and Mr. John Skalasky, both of Richmond Vo asky, both of Richmond, Va., were mar-ried here yesterday by Rev. S. R. White of the Baptist Church. The ceremony was performed in the office of the county public school commissioners in the court house. John McCullough of Boyd's, this county through his attorneys, Henry E. Davis of Washington and Alexander Kilgour of Rockville, has taken appeals in his suits against Rev. Thomas D. Richards, John H. Gassaway, William Waters, William U. Bowman, Elzie Z. Bowman and Nelson G. Jones, all well-known citizens of the vicinity of Germantown. The suits were instiuted several months ago for damages resulting from a communication addressed to by the gentlemen mentioned and about mantown neighborhood, warning him not to engage in what was intimated to be an illegal business at Germantown, \$10,000 being the amount of damages claimed in each case. At the June term of court demurrers

to the declarations were sustained by Judges Henderson and Motter. Yesterday was a gala day at the Rockville fair grounds, a band carnival, three horse races, a base ball game and several other features attracting a crowd estimated at over 1,500. It was also a field day the politicians, and the numerous candidates for the democratic nominations were out in force and spent the day cir-

culating about the grounds in the interest of votes.
The carnival furnished Rockville was probably the greatest musical treat in its history, the following bands participating: The Frederick City Cornet Band, Walkersville, Harmony, Creigersville and Monocacy

Valley, all of Frederick county.

The races proved interesting, all the conestants being county horses and resulted as follows: First race, trot, two-thirds of a mile— William H. Rabbitt's Bessle Gould, 1—1;

Lee Offutt's Electrique, 2-2. Time, 1:52-1:56. Second race, pacing, two-thirds of a mile —Albert Fields' Anna Noble, 1—1; William H. Rabbitt's Walton Boy, 2—2. Time, 2:02—

Third race, running, one-third of a mile Sappho, 1-1; McPhonso, 2-2. Time, 39-37. Following the racing an interesting base ball game was played between the Rockville and Darnestown teams, the former winning by the score of 16 to 15. Followng is the score by innings:

#### A Model Community. William E. Curtis in the Chicago Record-Herald. Captain Ellison A. Smyth is generally

recognized as one of the ablest and foremost business men of the south. He is president of the Pelzer Manufacturing Company, which owns four of the biggest coton mills in South Carolina. They are situated in the town of Pelzer, in the Piedmont region, in the western part of the state.

Pelzer offers an interesting subject for the study of sociologists, being a successful enterprise and a notable example of a municipality governed by a corporation. It is similar to what Pullman used to be, and like Calumet, Mich., which is owned by the copper company. There are about 6,000 inhabitants at Pelzer, all white, although a few colored families live around the outskirts of the town, outside its limits There skirts of the town, outside its limits. NUMBERS IN THE ISLANDS.

A Band of White Bandits Captured-Stories of the Cleverness, of Quintin Salas.

Manila Cor. of the New York Evening Post. The schoolmaster is abroad in the Philippines, making some recompense for the ravages of war,9 and doing what he canmuch, probably-to create good feeling and prevent a recurrence of hostilities. Nearly everywhere he goes he is welcomed, the impulsive Filipinos showing a great desire for education generally, and acquirement of the English language particularly. Professor Atkinson, superintendent of schools, after a tour of the provinces in southern Luson, feels that he will need to double his order for a thousand English-speaking teachers in order to meet the demands of the people of the archipelago. Even Min-

lish-speaking teachers of the Mohammedan faith are to be brought from India. Nearly every pacified town in Luzon and name of the other islands has its schools. The American soldiers have turned readily from fighting to teaching. Many of them are as enthusiastic as teachers as they were as fighters. When the sword was sheathed several of the officers turned their attention to the preparation of suitable text books for the native schools. In Cebu two valuable contributions of this character have een made, one an English-Spanish Visayan dictionary, and the other a reader in the same languages. Capt. John H. Goldman, overnor of Bataan province, says that there are schools in nearly every town un-der his jurisdiction. He has one English eacher for each town, but needs more believes that in six months English will be oken by the younger people throughout

#### For an Industrial School.

Here in Manila a vacation normal school, attended by native teachers from many provinces in Luzon, has just ended. It is pronounced a success, both in point of attendance and in the interest shown. The aim was to illustrate to the Filipino teachers the modern methods of education. What the Filipinos much need is industrial education. They are quick to learn, "handy," and as imitative as the Japanese, and if taught how to work in modern ways with improved tools, they would become for-midable industrial competitors, within such limitations as the climate enforces. There is hope of the establishment here of one or more industrial schools through the efforts of the Red Cross Association. Mrs. Capron, widow of Capt. Allyn K. Capron, jr., sent here by Miss Clara Barton to ascertain Manila's special needs, will report that industrial schools are more needed than hospitals. Money for the creation of such schools may be forthcoming. Mrs. Capron tells of the readiness of several wealthy men of New York city, acting together, to establish such a school, and she knows of two wealthy ladies in Philadelphia who are anxious to contribute to such a pur-

Manila's Government. From present indications Manila may be the last of the large cities in the Philippines to have a civil government. Problems are

to be met here which are not found elsewhere, because of the amount and the diversity of the population. It is not probable that the city will be given complete civil government at the outset. As it is to be the seat of the central civil government for the islands, the creation of its local government may await the establishment of the larger civil department. This last, an apparently inspired article in a local paper says, will probably consist of a governor general, a cabinet, and a legislative council. Every one expects that Judge Taft will be the governor general. The cabinet positions will be filled by the other members of the Philippine commission, who

will also be members of the legislative council. The rest of that body will be composed of Filipinos. The council will be a joint body with two branches. A civil government could do no more to-ward the needed sanitary improvement of the city—the most important matter here-than is being done by the board of health under military direction. Probably a purely civil board would be less efficient. sanitary census, just completed, facilitates the work. Hereafter the number of occupants of a lodging house will be restricted according to the size of the building. This will bear hardest on the Chinese, but their

habits are the greatest menace to health. Much has been written from here of the organized native murder societies, many members of which have been hanged for atrocious crimes. Not for palliation, but for comparison, may be told now the story of a band of American outlaws whose deeds match those of the darker-skinned cutthroats. This American gang numbered The leader is a deserter from the British army, and served here for a time in the 41st Infantry. Another was a sergeant in the same regiment, who escaped punishment for rape on a technicality, and third is an ex-convict from the states. had their headquarters at Angeles, which vicinity during the four days in which they were at large they assaulted many women, murdered at least four persons and committed many robberies. All six are now in the guard house at Angeles, and the probability is that they will depart this life through a gallows trap.

An Artful Dodger. Two pleasing stories are brought here from Ilollo of the cunning of Quintin Salas, a Filipino colonel, long sought by the American soldiers, but not found until he surrendered himself. The first tells of his meeting with the American Lieut. Conger. year Conger ran across what purported to be an insurgent hospital camp. He found in charge a very courteous medical officer, with a red cross on his arm, who greeted his American visitors cordially, while he busied himself with his patients. Further along the trail a Filipino was captured, who, when put to the "third degree," said that the hospital camp was a ruse, and its medical officer none other than Salas. A quick return to the supposed hospital dis-closed no patients and no surgeon. The other story concerns Capt. Raysor of the 44th Inftnary, who was also hunting Salas. On his "hike" Capt. Raysor met a hombre whose offered service as a guide was gladly accepted. The guide seemed to know the country very well, and showed the captain more bypaths, lanes, short cuts and, incidentally, hard tralls than he possibly incidentally, hard trails than he possibly could have found alone. They did not find much of anything else, however, and when the force was thoroughly fagged out the guide volunteered to go ahead and do a little scouting alone. He did not return. Recently, while in Iloilo, Capt. Raysor was introduced to Col. Quintin Salas by Major Noble, and could hardly believe his eyes as he recognized his erstwhile guide of the swamps.

# SAILOR LOSES HIS CAP.

ship Buffalo, white passing through Boyd's yesterday afternoon on the Washington and Cincinnati limited train for Cincinnati, had his cap blown from his head. It was found by Stephen Austin, a crossing watchman, and contained a pass through the navy yard at New York, issued June 16, to W. Arens, signed by H. H. Harty. lieutenant commander; also honorable dis-charge papers, which were not filled out, and a ticket to Cincinnati. It is also claimed a check for the sum of \$180 was also lost with the cap, but diligent search has falled to locate it. The cap was of the sailor style, with U. S. T. S. Buffalo upon the front. It is supposed Arens kept on with the train. The cap and papers were turned over to the company's officers here.

The halls of staid and venerable Gon-

There was a brilliant audience present, the fair sex predominating, while upon the stage were seated many distinguished honorary guests, all of whom gave enthusiastic praise to the young men who were being put upon the ways and launched from their alma mater into the seas of practical life. The stage was appropriately decorated for the occasion, there being a liberal display of palms and greens about the graduating class, surmounted by the national colors, and this setting was brought into contrast in the middle of the auditorium by the white colors of the college. Cardinal Mar-tinelli presided at the exercises, and accompanying him upon the stage were Rev. Charles Warren Currier, Rev. Joseph F. McGee, Rev. Eugene F. Hannan, Rev. J. A. Judge Burke's Address. Judge Napoleon Charles Burke of Maryland, a furist of note, and a graduate of a Jesuit college, delivered the address to the

students. He said in part: "The young men educated here are fortified with the truths of religion, and it is safe to say that not one of them will ever be found subscribing to the doctrines of infidelity. Upon all the great and vital questions of human life there is not a small boy who is instructed in institutions such as the venerated Gonzaga who is not wiser than the philosopher of ancient Greece and Rome. Their wisdom on these subjects, inasmuch as they are educated in the truths of God, is, indeed, far greater than the combined wisdom of all the infidel philosophers from the beginning down to our own

'In this grand country of ours, where all men have equal rights before the law, and where the avenues for advancement are open to all, there ought to be no such word as fail in the bright lexicon of youth. Some one asked the great saint and sage, St. Thomas Aquinas, what was the best way for a young man to succeed. 'Will it,' was the saint's response. So say I to all of you, will it and you will succeed."

Private Carroll Gets Medal. A gold medal was awarded to Private Edward G. Carroll, Company B, Gonzaga Cadets, for having attained the highest degree of tactical efficiency in the competitive drill of the cadets held June 14. Twenty picked men competed for the medal, the judges, Col. George Reid and Lieutenant Colonel B. R. Russell, U. S. M. C., award-ing the prize to young Carroll. The recipi-ent of the bonor was accorded an ovation when he stepped upon the stage to receive his medal.

his medal.

The students' salutatory was delivered in effective style by William M. Deviny. A symposium on "Macbeth," in which Frederick L. Devereux spoke on the "Temptation," Francis J. Diemer on "The Crime" and John P. Meagher on "The Retribution," was highly commended by the audience as was highly commended by the audience as a noteworthy effort on the part of the three students mentioned. William M. Deviny, in the saluatory ad-ress, spoke of the series of commencements of Gonzaga College, and expressed the hope that the present one would be one more in the illustrious roll. He expresse regret that no degrees would be conferred but hoped that in the future graduating classes would follow each other in un-

broken series. He expressed the thanks of the class to Cardinal Martinelli for his presence on the platform, and to the alumi and others in the audience. Prizes and Honors.

New Railroad for Chambersburg-Fine Melon Crop. special Correspondence of The Evening Star.

HAGERSTOWN, Md., June 21, 1901. An important innovation for Chambersburg and the people of Franklin county. Pa., is the granting of a charter for the building of a trolley line from Chambersburg via Greencastle and Waynesboro to Pen Mar by a company capitalized at \$120,000. Under the charter the route will cover all the streets of Chambersburg and run to Guilford Springs, Marion and Greencastle turnpike to Waynesboro, thence to Rouzerville and eventually to Pen Mar; thence through Leitersburg to this city. The company will not only construct a trolley line, but will furnish light and power to Greencastle and Waynesboro.

A number of Pennsylvania capitalists, including some of the most substantial gen-tlemen of Hanover, York and McSherrys of supplying power to nearby towns. They have prospected along the river above Shepherdstown, giving the dam at that place special attention. Their plan, as far as it has been made public, is to secure

power for the use of towns needing it, in-cluding Sharpsburg, this county, Shep-herdstown and other points. The scheme, if carried into effect, will prove an important factor in the commercial development of these places.

The town council of Hancock, this county, has granted to William T. Hamilton and associates two franchises, one for the erection of a system of waterworks and the other for an acetiyene gas plant, both to be completed and in operation on or before July 1, 1802. The water to be supplied the town will be taken from Sand mountain, the source of supply of mineral water at Berkeley Springs.

The melon crop of this county this season promises to beat all records. Mr. Samuel Shoupe of Hagerstown, who has a ant factor in the commercial develop

gather 90,000 melons this season if the present favorable conditions continue. He has 30,000 plants out, and all are thriving. It is stated that fly has made its appearance in the wheat in different sections of the county. The farmers are of the opinion, however, the wheat is too far advanced for the fly to do any great injury, harvest being but a week off.

Jeweled Lace Revived. From the London Chronicle.

There appears to be a prospect of the recival of the fashion of wearing jeweled lace, which was so much in vogue in other centuries. It was well toward the end of the last century that the taste for very fine laces was revived; and it is expected that a resident court is London will do much for the cause of laces set with gems. Some people maintain that what isornado da Vinci painted, and what perhaps Michael Angelo and Titian wore and Benvenuta fashioned, should surely meet with the approval of latter day critical. proval of latter-day critics. In the opinion of many artists a Brussels point flounce set with sapphires is the acme of refined embellishment. It is certainly expensive.
